## B. P. O. Elks and Royal Purple Hold Impressive Memorial Service

Sunday afternoon, December 1st, the Coleman Lodge of the B. P. O. Elks and Order of the Royal Purple members and friends, some 82 in number, gathered in the Elks hall to hold a memorial service in honor of all the departed members of both Lodges.

The solemn and impressive service was opened by Exalted Ruler H. Nelson with a hymn sung by all with I. Spivek as pianist for the afternoon. Chaplain N. Ash, standing at the altar, read the Invocation Honored Royal Lady A. Jones read the Memorial Prayer.

Lady Chaplain E. Nelson led the assembly in reciting the Lord's Prayer.

Exalted Ruler H. Nelson called on Leading Knight S. Ostrow to say the service of his office. Assoc. Royal Lady E. Kostelnik said the prayer of this office.

Loyal Knight D. Ennis said the service of his office and Loyal Lady M. D'Amico said the prayer.

Lecturing Knight J. Wavrean recited the service of his office. Lecturing Lady N. Goulding said the prayer.

Exalted Ruler H. Nelson recited the last office and said the prayer. Two solos were then beautifully sung by Richard Chernyck, accompanied by D. Korman. These were "The Old Rugged Cross" and "He". The names of the departed Elks members were then read by Secretary J. Rushton. The names of the Royal Purple deceased members were read by Secretary A. Vasek.

One minute silence was then observed by all.

A very beautiful ceremony was then carried out by members of the Royal Purple drill team. They wore long white gloves and the various purple and white ribbons and badges of office.

Lady Chaplain E. Nelson, carrying a white cloth, and Chaplain N. Ash of the Elks, carrying a black cloth, and Lady Conductress V. Wavrean, carrying a white flower wreath, paraded the hall to solemn music by I. Spivek.

They draped the respective charters. The drill team then proceeded to form a Cross. They laid white flower wreaths to form the Cross and knelt while Mrs. F. Dykes sang the hymn "Nearer My God To Thee".

Rev. F. Dykes then made a very solemn and impressive sermon on Life and Death which left everyone with very solemn thoughts.

A beautiful heart-touching solo "Ave Maria" was sung by Mrs. Dykes accompanied by Mrs. S. Penny. The benediction was then said by Lady Chaplain E. Nelson.

Closing ceremony was read by Exalted Ruler H. Nelson.

He then thanked all the members and friends for attending the services.

Singing of the Queen brought a very beautiful and solemn service to a close.

Deceased members of the Elks remembered were:

A. Cornett, A. Bowling, F. Graham, J. Lysek, W. Bell, J. Hopkins, H. Antle, D. Randall, A. Webster, W. Bobbitt, J. Atkinson, A. McCulloch, M. Steigler, J. Pittloft, H. Eysackers, T. Hightnatham, W. Harrison, H. Pearson, H. Gate, H. Clarke, O. Harrington, F. Barrington, N. Squarrell, R. Eastwood and DeCocco.

Royal Purple members were: H. Milo and E. Bouthillier.

Members of the Royal Purple drill team were:

Leaders: I. Caroe and M. Moore, N. Vaskov, D. McGregor, F. B. Taletti, I. Chalmers, N. Hote, E. Liska, F. Langille, A. Wilson, I. Petusk, H. Caroe, K. Cornett and H. Taggart.

Exalted Ruler A. Holston and Leading Knight J. Dobek of the Blainmore Elks Lodge attended the services.

The Ladies of the Royal Purple served coffee and sandwiches following the ceremonies.

## Order of Eastern Star Celebrate Birthday

On Tuesday, November 19, officers and members of the Minerva Chapter Order of the Eastern Star held their regular business meeting and a social evening was enjoyed at which members of the Leta Chapter, Blainmore, were guests.

Worthy Matron A. Wilson welcomed members and guests on the occasion of the Chapter's 31st anniversary.

A delicious supper was then served by the committee. The table was centered with a beautifully decorated birthday cake. The honor of cutting the cake was given to Mrs. K. Johnston.

Leta Chapter then joined in singing Happy Birthday to the Coleman Chapter.

## Couple Celebrate Silver Wedding Anniversary

Mr. and Mrs. Richard Walmsley of Blainmore, formerly of Coleman, were pleasantly surprised on Saturday evening when several friends gathered at their home to honor them on their 25th wedding anniversary.

A dainty lunch was served from a beautifully laid table covered with a white damask cloth and shining silverware and china.

The table was centered with a two-tiered handsomely decorated wedding cake flanked with flowers and white candles. The room was decorated with white wedding bells and streamers.

The honor of couple's four oldest children, Orville, Orion, Allen and Wayne presented their parents with a case of silverware. Each couple attending presented them with a gift.

The happy couple thanked their friends and family for the wonderful party. The wedding cake was then cut, dancing and singing brought an enjoyable evening to a close.

## Coleman Elks Travel To Fort Macleod for Installation Services

Friday evening District Deputy Grand Exalted Ruler J. Wavrean and four members of the Coleman Elks Lodge Patrol Team travelled to Fort Macleod to take part in that Elks Lodge installation of officers.

D.D.G.E.R.J. Wavrean installed the Fort Macleod officers into their respective chairs. He was assisted by Past Exalted Ruler D. Ennis.

The Patrol Team from Coleman taking part in the installation were led by Sgt.-at-Arms G. Poulton and consisted of J. Bodisch, P. Topak and E. Spivek.

## Police Urge Public To Observe Safe Driving Week

"Safe Driving Week is December 1st to 7th, 1957. It is being conducted simultaneously in Canada and the United States. This is a very worthwhile effort and will receive the approval and support of every police force in both countries. We join with the Canadian Highway Safety Conference and other authorities responsible for promoting Safe Driving Week in requesting all motorists and pedestrians to do their part.

The test confronting every community will be to remain completely free of traffic accidents for a seven-day period. No traffic program, regardless of how well organized, will succeed without the active co-operation of the public.

Approximately 35,000 persons have been killed in traffic accidents in Canada in the past 20 years. It is a proven fact that 85 per cent of such motor vehicle accidents are due to human behavior.

It is, therefore, apparent, that all that is necessary to reduce this terrible toll is for motorists and pedestrians alike to observe, not only the letter, but the spirit of all traffic laws and regulations. In short, drive and walk as you would have others drive and walk."

## Legion Gives Turkeys For Dart Winners

The Legion dart tournament for turkeys got off to a flying start on Saturday, November 30.

Due to demand by players two tournaments were run off. In the first event hard fought games were the order of the day as all players warmed up to the intense competition of the game.

The eventual winners of the first event for first turkey by Mr. Johnny George, with second place by a large chicken being won by Tommy Sudworth.

In the second event first place for a turkey again went to Johnny George and second place to William Smith. Mr. Smith was a surprise contestant and pushed the regular players to their utmost.

It was announced by the committee in charge that the winners of last Saturday's competition are ineligible to play in this Saturday's competition. It had been announced earlier that no winners were to be allowed to play in successive competitions, but this rule was changed for the second competition on November 30. It is presumed that this rule will apply for the next game.

## James Young Weds Lorraine Anhorn of Medicine Hat

Baskets of mixed flowers decorated Temple Church at Medicine Hat for the recent candle-light ceremony when Lorraine Elaine Anhorn, daughter of Mrs. Tillie Anhorn of Medicine Hat, became the bride of James Thomas Young, son of Mr. and Mrs. Charles Young of Bellevue.

Cousin of the bride, Rev. J. Hoffmann officiated.

The bride's brother gave her in marriage and she wore a gown of white lace and satin and her finger-ring veil cascaded from a pearl encrusted tiara. She carried a white Bible mounted with orchids.

Maid of honor, Miss Marie Schultz and bridesmaids, Miss Stella Anhorn and Miss Catherine Young, wore identical gowns of bouze and turquoise taffeta with matching head-pieces of feathers and carried bouquets and turquoise ornaments.

Brother of the groom, David Young, was best man and David Kremnick and Elroy Fisher acted as the groomsmen.

A reception and dance was held at Connaught Golf Club in Medicine Hat.

Uncle of the groom, David B. Young, of Coleman, proposed the bride's toast.

For her honeymoon trip to Vancouver the bride wore a black suit complemented by a corsage of red roses.

Upon their return the couple will reside in Calgary.

Christmas Seals flight tuberculosis.

## Collieries Officials Are Honored On Retirement

November 30, 1957 - Three Coleman Collieries officials retire with an accumulated total of 108 years of service in Coleman mines. The above could have been a front page headline, but we gather from all of these old-timers of the coal industry that they were not retiring from Coleman, just resting from the daily wear and tear of having to work.

Mr. "Chris" Rogers, master mechanic with the Collieries for "43" years, was presented with a gold watch by Mr. P. J. Harquill, managing director and a \$25 cheque in appreciation for his many years of service.

Mr. Ernie Hill with "34" years of service in the mines and held many positions as fireboss, pit-boss, retired with the presentation of \$25 from the Collieries and was highly commended by Mr. D. B. Young, general manager.

Mr. Jim Lowe with "31" years of service in the Coleman mines, and retired as a fireboss, was also presented with \$25 in appreciation of his many years of service. Mr. Lowe is a member of the Canadian Techn. Socn., R.C.M.E. of Blainmore.

Making all of the above presentations was Mr. Dave Young, general manager of Coleman Collieries, at a party sponsored by the Mine Office's held in the Italian hall on November 29.

Many old-timers were in attendance as well as many of the younger generation to wish the gentlemen "Good Luck" on their retiring years.

Many men of the declining mine era will miss these fellows who have guided them through the years.

We say "Good Luck and God Bless You" You are Coleman pioneers.

## Elks Bingo Jackpot Now \$100

A good crowd filled the Elks' hall on Friday evening for the regular Bingo.

All hoped to win the \$90 Jackpot but no one was successful.

This makes the Jackpot at the next Bingo on December 13th a round \$100.

Jackpot consolation winner was S. Constanzo of Bellevue.

No one won the \$42 six number Jackpot. This will be \$48 at the next Bingo.

The other lucky winners were Toy animal, Mrs. J. Derbyshire, Chair, N. Capola.

Groceries, Mrs. R. Collins. Wagon (child's) Mrs. N. Cytko. End table, I. Monalhatti.

\$42-No winner. \$25 cash, Mrs. A. Hansen, Frank Gas, L. Nastasi, Bellevue.

Comforter, F. Kucher, Frank Electric train, Mrs. M. Poch of Frank.

Doll, Mrs. Miller, Blainmore. Fractor and truck, N. Capola.

## Pass Soldiers Return From Germany

Last week saw the return of two Pass soldiers of the 2nd Bn of P.P.C.L.I. from a two-year tour of duty with NATO forces in Germany.

Cpl. George Nestor and family returned to Coleman on Friday to spend six weeks with Mrs. Nestor's parents, Mr. and Mrs. J. Hardy.

Cpl. Nestor stated it sure is swell to be back in Canada. The other Pass soldier to return was Pte Leonard Blake of Blainmore, another well known Pass man.

Both of these soldiers saw action in the Korea police action with the UN forces.

## Industrial Commissioner Speaks To Board of Trade

The regular Board of Trade meeting held last week had as their honored speaker, Mr. John Banfield, industrial commissioner for the city of Lethbridge. The Board's regular agenda of business was shortened to allow the guest speaker plenty of time to give a very comprehensive address.

On the regular course of business to come before the board was President, D. B. Young.

Vice-President, J. Salus. Secretary, R. Flooded.

Treasurer, F. DeCocco. Board directors, F. Abousaity, C. Freeman, A. Montalbetti, J. Allen, Sr., R. Cilli, J. Kerr and W. Holyk.

Concluding the regular business it was decided to purchase six picnic tables to be placed in the Park for the convenience of the touring public.

Following is Mr. Banfield's address to the board members.

"I am indeed grateful for this opportunity to meet and get acquainted with representatives of the business and industrial life of this area. I wish to express my appreciation to the Chamber for this invitation extended to me through His Worship Mayor Abousaity to Mayor Shackleton to speak to you this evening.

It is only natural that as an industrial representative, having been given a free choice of topic, my subject would be concerned with the development and establishment of industry. As a comparative newcomer to Alberta, and as this is the first occasion on which I have visited the Crown West Pass area - I had my doubts about tackling a matter which dealt solely with problems directly affecting your community. On the other hand, it would not be possible for anyone without first making a very thorough study, to do justice to the problem. Therefore, my remarks will be of a general nature, confined to some basic fundamental facts and certain aspects of industrial development promotion.

This is a complicated and challenging subject but I would add that Industrial Development is our future. We must accept this fact and prepare for it if we are to continue to enjoy our present standard of living and a progressive way of life. Attracting industry into a community is highly competitive, consequently it is a sales job. Because of this it must be supported by adequate local resources. Here in this area, you are blessed with an abundance of natural resources - COAL, IRON ORE, LIMESTONE - and just a few miles north of you there is the SAVANNAH CREEK natural gas discovery.

The development of these resources would place this area in a most enviable position. You are experiencing difficult times, but there has also been some prosperous ones I refer, of course, to that bygone era when the steam engine provided the major market for your coal. I regard your present difficulties as a transition period.

I say this because, on reflection, you will agree that Canada is only emerging as an industrial nation. Greater expansion has still to come.

Much of our great nation and, in particular, our own province, has still to be developed. You, here, have the basis on which major, heavy industries are built. With the establishment of primary producers, the inevitable result is the building of secondary producers to develop by-products.

Despite the seriousness of the situation that currently faces the Alberta Coal Industry, there are several reasons for anticipating a definite reversal of present trends in the years ahead. On the long term view there remains the unquestionable fact that coal represents not only Alberta's largest and potentially cheapest energy resource, but that it is also the fuel most likely to profit from technological advances and improvements in mining and utilization techniques.

Were the price of petroleum and gas to rise as a consequence of the development of more remunerative export markets and that of coal fall as a result of reduced mining and handling costs, a pronounced up-

surge in the demand for coal in Alberta is inescapable.

Experiments are being carried on continuously by both private and government agencies to develop new methods of utilizing this vast source of power. Let us consider some of the possible uses:

(a) Fuel for locomotive engines that operate on the principle of coal fired gas turbine engines;

(b) Conversion of coal into chemicals that can be used for specific manufacturing processes;

(c) Production of coking fuel for use in the steel industry;

(d) Generation of electricity, which may eventually develop nearly half of Alberta's power from coal fired thermal stations;

(e) Use in industrial heating as the price of coal becomes more competitive with fuel oils and natural gas.

Power generation within the province is likely to become overwhelmingly dominated by water power and coal, with some 42 per cent generated in thermal stations burning coal. If coal burning plants were to be used to supply electrical power for consumption in the Pacific Northwest states, this development would undoubtedly benefit this area, because of its proximity to the major population centres of Idaho, Washington and Oregon.

If presently discussed plans for the establishment of an iron and steel producing industry in Alberta come to fruition, considerable tonnages of coal would be required for carbonization and the provision of metallurgical coke. Recovery and sale of the by-products of such an operation would provide additional revenue. Let it not be forgotten that in the Crown West Pass there lie the largest reserves of metallurgical coke found anywhere west of the Mississippi.

In view of recent American experience relating to the economies of diesel operated railroads, there are some reasons for thinking that coal may recapture a substantial share of the railway fuel market. Such a development would, in fact, become a distinct probability. If current work on coal-fired gas turbines is successfully completed, research on these turbines is at present carried out in Canada at McGill University and in the U.S.A. by Locomotive Development Committee of Blainmore Coal Research Inc.

The Canadian project is largely financed by the federal government. Prototype turbines have already been built and operated and their performance has been favorably reported on.

There appears to be ahead a distinct possibility of eventually basing a chemical industry on coal that will supplement rather than compete with the petrochemical industry. The possibility of converting coal into synthetic liquid and gaseous fuels by hydrogenation and gasification - processes that have been exhaustively studied in the U.S.A. and in Germany - is considered remote in Alberta unless new developments in this field are reported. But hydrogenation to produce chemical rather than gasoline and/or carbonization with subsequent manufacture of organic chemicals from the carbonization by-products appear quite capable of exploitation in Alberta. What is particularly attractive about these possibilities is that Alberta's diversity of coal types would permit appropriate selection of different coals for specific manufacturing processes. Moreover, in an integrated industry hydro-gasification residues and the carbonized char obtained from such operations would offer a cheap and desirable fuel for power generation. Also potentially possible within the province is the use of coking coals for the production of so-called "structural carbons" such as acid-tank and blast furnace linings.

(Continued on Page 3)

### Permanent Microwave Connection for Alta. TV Nov. 24

Television stations at Calgary, Lethbridge, Medicine Hat and Edmonton were connected to the direct microwave network on November 24th. The connection to Medicine Hat will be of a temporary nature for a period of one month. The advantages of live television have already been seen by Albertans who viewed the Queen's visit, the World Series and eastern professional football on an experimental hook-up.

Due to the time differences in the country it is still necessary to delay most television programs in Alberta but world events, important actualities and sports contests will now be seen live. Each week you will see Friday night boxing matches and N.H.L. hockey games,

and of course you saw the Grey Cup football final November 30.

A special live microwave program was presented to commemorate the opening of the permanent network connection.

The microwave network consists of a series of relay towers situated on an average of 30 miles apart. No three towers are placed in a straight line in the network; instead the towers are situated at angles to each other, giving slightly zig-zag effect. This is done to eliminate the possibility of interference that might be caused by weak signals from the first tower reaching the third tower in the line.

The relay system used has an ultimate capacity of 12 one-way channels. A pair of channels can carry 600 telephone conversations whereas a television program requires the major portion of a channel.

The system will also provide special communications facilities, such as teletype, telephoto, telegraph and telemetering circuits.

Because of the distances separating the towers, an extensive maintenance problem is involved to ensure good reception. Attendants are on duty only at a few key stations and the others are looked after by remote control by means of an intricate alarm system.

### Christina Frerot Is Bride Of Bruno Kucklyn

Father Tessler officiated at the double ring ceremony which united in marriage Christina Rosalie Frerot and Bruno Peter Kucklyn.

Nuptial mass was celebrated at 10:30 a.m., Saturday, November 23 in St. Anne's Catholic Church in Blairmore, for the daughter of Mr. and Mrs. A. Frerot of Blairmore, and the son of Mr. and Mrs. Mike Kucklyn of Coleman.

The bride entered the church on the arm of her father and wore a floor-length gown of lace and net. The bodice featured a high neckline and longilly point sleeves. The hoop skirt had layers of net from the waist down in the back. Her head-piece of lace and net held in place a three-quarter length veil. Tina also wore the orange blossoms her grandmother wore at her own wedding 37 years ago, plus her grandmother's engagement ring during the ceremony. Her bouquet was of white carnations and red roses.

Bridal attendants were Miss Margaret Frerot, sister of the bride; Miss Beverly Kemp from Blairmore, and Miss Fay Tiberghien of Calgary.

They wore similar full length gowns of net and lace with hoop skirts and matching lace jackets. They wore matching wrist bands of flowers and chapel veils. Miss Frerot wore yellow; Miss Kemp, pale blue and Miss Tiberghien, pink.

Flower girls were two nieces of the groom, Rita and Donna Michalsky of Calgary. They both wore short dresses of pale green with bandeaus of flowers.

The scalloped necklines of their dresses were gathered with flowers and they carried colonial bouquets of a yellow mum surrounded by white daisies.

Groomsmen were Stan Frerot, brother of the bride; Julius Karpaka of Coleman, and Tom Muzuka of Calgary.

Organist was Mrs. L. D. Huntly. At 2:00 p.m. a reception was held in Coleman with about 60 guests present. The house was decorated

with white streamers and a four-tiered cake, topped by two doves with rings, centred the bridal table.

Father Tessler proposed a toast to the bride and the groom responded.

For her daughter's wedding Mrs. Frerot chose a blue afternoon dress overlaid with pink lace, complemented by pink accessories. She wore a corsage of pink carnations.

Mrs. Kucklyn wore a navy blue lace dress over pink and wore a corsage of pink carnations.

For a honeymoon in the United States the bride changed to a suit of cocoa brown with blue accessories and she wore a gold heart brooch, a gift of the groom.

The young couple will reside in Calgary where the groom is employed.

Out of town guests at the wedding were from Calgary and Creston.

### S-D Week Aids Police Drives

Each year, more and more police forces across the nation are taking up the laudable custom of holding Holiday Hazards campaigns during December.

Designed to combat the terrible traffic tolls recorded during the Christmas and New Year's weeks, these campaigns are proving highly successful.

Recognizing their value, the Canadian Highway Safety Conference, in sponsoring Canada's national Safe-Driving Week during the first week of December, is seeking in every way to co-operate with these police drives. Safe-driving Week activities are designed to work closely with police force activities and act as inducements to the Holiday Hazards efforts.

Evidence of this co-ordination of activities appeared at the Conference's annual general committee meeting in Toronto on September 16th. Deputy Chief of Police R. R. Kerr, speaking for Chief John Chisholm of Toronto, gave assurance to the Conference that the police were anxious to co-operate in every way possible in any safety campaign.

He spoke in connection with a statement made by W. Arch Bryce, that the Conference, in sponsoring Safe-Driving Week, did not intend to interfere with the police campaigns, rather to co-operate with and assist the police drives.

The Royal Canadian Mounted Police, provincial police, and municipal police forces have provided extensive and active co-operation in Safe-Driving Week work.

Judges and magistrates presiding at court where traffic offences are concerned have also co-operated strongly.

In some courts a Safe-Driving message is pronounced at the opening of each session, and many an offender has been vividly reminded of his responsibilities direct from the bench.

Traffic officers in most parts of Canada point out to motorists and pedestrians what they, as individuals, must do to help reduce the deaths in traffic. This assistance is extremely valuable since the person addressed by the traffic officer is usually accused of some infraction of traffic regulations, and the officer can indicate how such an offence, however minor it may seem, can lead to

property damage, personal injury, even death.

### Sleep Cure For Mentally Ill

Sleep induced by drugs, and lasting from 25 to 30 days is reported to be one of the latest important discoveries in the treatment of the mentally ill, according to Lawrence Galton in the current issue of Canadian Home Journal.

An improved mental state was discovered in 114 patients after this lengthy "natural-like" sleep, induced by barbiturates and chlorpromazine.

The sleep is said to have helped to solve deep inner conflicts and make the patients more receptive to further psychiatric help.

## ATTENTION MOTHERS!

The Chinook Health Unit will hold a  
**BABY & PRE-SCHOOL CLINIC in**

COLEMAN (Town Hall)

**WEDNESDAY, DEC. 11th,**

from 10.30 to 11.30 a.m. and 1.30 to 4 p.m.

BLAIRMORE (Grill Hall)

**THURSDAY DEC. 12th**

from 10.30 to 11.30 a.m. and 1.30 to 4 p.m.

BELLEVUE (I.O.O.F. Hall)

**FRIDAY, DEC. 13th**

from 10.30 to 11.30 a.m. and 1.30 to 4 p.m.

The following may also receive Polio Vaccine at these Clinics:

1. Babies down to 6 months of age.
2. Adults up to 40 years of age.
3. Expectant mothers.

## Industrial Commissioner

(Continued from Page 1)

ings, heat exchangers, corrosive-resistant tubes, etc.

There is every confidence in the future for the province's coal industry, and it is strengthened by the following excerpt from the Dominion Coal Board's annual report for 1953-54, which reads as follows:

"The Board from its inception has worked from the premise that the Canadian Coal Industry is vital to the economy of the nation. The decline in the industry during the past few years has not affected this opinion but on the contrary has strengthened the conviction of the necessity for the industry's preservation. Coal still remains the chief basis of the economy of the main industrial countries of the world."

Within the past few days, gentlemen, you were visited by a delegation from Japan who are seeking coal of the very type of which there are extensive reserves here in your area. They are seeking an extensive tonnage. All of this prompts me to ask: Are you not now faced with the prospect of no longer being concerned about markets but

of the possibility of not being able to produce because of the possible shortage of qualified mine labor? As you know, generally speaking, the solving of one problem usually leads to another.

### Iron Ore

In the Burnin area lies considerable iron ore deposits. Because of the titanium in the ore there is a metallurgical problem which increases the cost of recovery of iron from the ore. But should the investigation surrounding the economics of the proposed smelter at Burnin prove it to be a profitable operation, there is no telling where future industrialization of this area will end.

### Sulphur

The sulphur discovery of Savannah Creek gives rise to the prospects of a sulphur plant being established in the vicinity of Coleman. According to reports a pipeline is to be built from Savannah Creek to Coleman where the gas will be scrubbed before entering the planned grid line for transmission to Southern British Columbia and the U. S. Pacific Northwest. The scrubbing operation will produce the by-products used in the production of petrochemicals.

The resources I have mentioned are, of course, concerned with heavy industry, the multi-million

project, and surrounding them all are some mighty big IFS.

However, it would appear that your future is indeed brighter now than it has ever been, but when looking to the future is there a lesson to be learned from the past? There is, and it is this—A community which depends on one or two industries closely tied to the economic cycle is in a vulnerable position when markets recede or disappear. Is it not then sound common sense to take a real look at this situation to see what can be done about using more than one basket to carry the eggs?

It must be evident that where you can show coal for industry and domestic use, iron ore, timber, limestone and natural gas, with its by-products sulphur, propane, and butanes, all adjacent to each other, an attractive industrial picture is presented.

Does it not seem logical that if this picture is presented in a proper manner to selective industries, favorable consideration of your area as a place to locate could conceivably result? It is with this thought in mind that I should like to say something about the basic principles of industrial promotion on a community basis as a follow-up to our industrial workshop held early in October this year which

His Worship your Mayor attended.

I have said the industrial development is our future. I would go further and say that the onus is on responsible citizens and authorities to make every effort to promote the economic growth of their locality. You will, no doubt, be aware of the various agencies who are anxious to help your town expand industrially, but they can only help. The decision to expand and the spearheading rests with you, the citizens of your community. While it is true all your citizens should the expansion of your area, to form a committee so large would be unwieldy and useless. I would suggest you establish a committee for development on a regional basis, embracing the area Burnin to Crows Nest, and even possibly take in Pincher Creek.

Why you may ask, such an extensive area? May I point out to you that the localities of Bellevue, Hillcrest, Frank, Blairmore, East and West Coleman, all have a community of interest in this area I have mentioned.

You cannot afford to be narrow in your thinking, nor can you afford the luxury of complacency or even allow petty grievances or rivalries to blur your vision. In unity there is strength, so states the old maxim. I would recommend that your efforts be pooled.

Your committee should be selected with great care and should definitely have municipal or civic council representation, but not preponderant council representation, for councils have a habit of changing personnel at regular intervals and sufficient outside representation should be on the committee to maintain a continuity of effort which is essential for any type of industrial promotion campaign. Yet on the other hand, promotion is a civic effort and will cost money. Your local councils will, in the main, have to find the necessary funds. How much will depend on the type of activity upon which you embark. Money spent by a council is the only portion of taxpayers' money expended which has the best chance of a return in terms of cold cash should an industry be brought in through the efforts of your committee.

The first step along the industrial development road after you have organized is to take an inventory of what you have to offer. In taking such an inventory you must also determine the disadvantages of your area that will make your selling job that much more difficult but which will have to be considered in dealing with prospects.

When you have your inventory data, the next step is to assemble it, and when this has been completed you are then ready to spread the gospel and you should meet the various agencies who will be ever ready and willing to assist you. You will save at your disposal the facilities of the Industrial Development Branches of the federal and provincial governments, the railways, the banks and utility companies, and you have your own Chamber. I know from knowledge and experience the extent to which the efforts of these agencies reach.

There is one other aspect of development to which an equal effort should be given, namely, the development of new local industries by rendering assistance to local firms and individuals to enter into new enterprises and to expand existing ones. Your local industries may only be very small and perhaps even regarded as insignificant, but do not under-rate their importance. Sometimes we all have a tendency to overlook our own backyard. New industry is nice to get but the neighbor who has been paying his way for a number of years and has provided jobs for your citizens, although it may be only a two- or three-man operation, is a valuable asset.

An Industrial Commission has been functioning in Lethbridge since June 1950. Since taking office and until his retirement in June of this year, my predecessor, Stan Lamb, whom most if not all of you will know, has done a tremendous job to bring industry in to the district, and with good success. In his efforts and in our publicity he has never failed to stress this area and others adjacent to Lethbridge. I intend to see that his efforts are continued and I extend to you a very warm invitation to use the facilities of my office if at any time you feel it can be of assistance. Any improvement of conditions in the Crows Nest area will naturally result in an indirect benefit to the whole of Southwestern Alberta. We are aware that the difficulties encountered here have had an adverse effect on the whole area. We have a common interest in development and it behooves us to work in close as-

sociation.

In closing, may I leave this thought with you. It is a quotation from Thomas Jefferson: "Accidental circumstances may control the indications of nature, and in no instances do they do it more frequently than in the rise and fall of towns."

## First Coleman Cub Pack News

(Column by Kenneth Murdoch)

One thing every cub must learn is the law. It is not just to know it but to know the meaning.

The cub gives in to the old wolf.

The cub does not give in to himself.

The cub gives in to the old wolf means that a cub should always do what an older person asks him to do without arguing. The cub does not give in to himself means that he should always go to the meetings and never hurt in other person.

## Wedding Rings Exchanged

(Edmonton Journal)

Wedding rings were exchanged by Miss Frieda Prezek and Mr. Peter Paul Kovack when they pledged vows at a fall ceremony in St. Agnes Catholic Church.

The bride is the daughter of Mr. and Mrs. G. Prezek of Edmonton and was given in marriage by her father. Mr. and Mrs. Kovack of Coleman are parents of the groom.

For her wedding the bride chose a bouffant gown of white tulle and lace styled with an empire bodice. A sequined coronet held her finger-tip veil of French illusion and she carried a bouquet of pink roses arranged with white carnations.

The matron of honor was Mrs. Norman Martell. She was dressed in a white length skirt of pink tulle and lace.

Completing her ensemble was a floral handkerchief and a nosegay of white carnations.

Mr. Calvin Poole attended the room as best man.

Following the church ceremony the couple left on a honeymoon trip to the United States.

For travelling the bride changed to a rust wool sheath dress with matching accessories.

Mr. and Mrs. Kovack will reside in Edmonton.

## In Memoriam

In Loving Memory of my dear son, Jack Derbyshire, who passed away December 8, 1954.

Mom who loved you sadly misses you.

As it dawned another year, In my lonely hours of thinking.

Thoughts of you are ever near.

Lovingly remembered by Mom.

## IN MEMORIAM

In Loving Memory of Jack Derbyshire, who passed away December 8, 1954.

His memory is as dear today, As in the hour he passed away.

Ever remembered by his sisters and brother-in-laws, Nan, Nora, Norman, Mickey and families.

## In Memoriam

In Loving Memory of Axel Anderson, who passed away December 5, 1956.

Days and months pass swiftly by,

But love and memory never die.

Ever remembered by his wife and family.

## competition scores for you

There's competition when more than 10,000 men representing more than 300 companies match their skills in the search for new oil fields. Result: more Canadian oil for Canadian consumers.

There's competition when the skilled workers in each of Canada's 43 oil refineries must strive night and day to improve the quality of their products. Result: today's low-cost, better gasolines.

There's competition when Canada's more than 30,000 service station operators vie for your business. Result: prices held down, and better service.

Competition calls the tune in every phase of the oil business—in exploration, refining and sales. Result: benefits to you as the consumer.

## PLANNING ALBERTA COMMUNITIES

Alberta's development has not been confined to the large cities. Towns and rural areas also reflect the growth and the problems of systematic planned expansion that go with it. The Government accordingly established the Provincial Planning Branch in 1951 to determine planning policies. These policies are administered by the Town and Rural Planning Branch of the Department of Municipal Affairs. The technical advice and assistance of the Branch is available upon request to any Municipality under 5,000 population which is not a member of a District Planning Commission. An aerial survey is made of the community from which contour maps are prepared. Plans are then made for subdividing and zoning. Detailed layouts for housing and commercial areas are drawn up. In addition a report based on economic and population surveys is prepared for a planning period of ten years. Proposals for the orderly development of the municipality are included in this report. One half of the cost of the aerial survey is the only expense borne by the municipality representing a small percentage of the total cost for this complete service.

## ASSESSMENT BRANCH

Uniformity in assessments for municipal taxation purposes is a problem which has long existed. The Assessment Branch of the Department of Municipal Affairs was formed in 1935 to achieve this end. Since its inception many changes have been incorporated to keep pace with the growth of Alberta. It has also been necessary to alter assessment methods in view of the new types of construction and building techniques presently being used. Practically all of the towns and villages in the province have requested departmental assessments for taxation and other purposes. Rural assessments are not undertaken by Branch assessors although under certain conditions the government pays 50% of costs. Urban areas are required to pay one-half the cost of assessment with the government paying the remainder, notwithstanding who carries out the work, whether a municipal or government assessor. Assessment Branch sub-offices have been established at Red Deer, Grande Prairie, Calgary and Lethbridge to ensure close liaison with the local municipal officials, as well as to give advice and assistance to appointed municipal assessors.

## INSPECTION BRANCH

The Department of Municipal Affairs Act requires the books and records of every municipality to be inspected at least once a year. This is the responsibility of the Inspection Branch and all assessment and tax rolls, minute books, bylaw registers, cash books, bank books and any other records the Inspector may require of the Municipality are examined. Assistance and advice on procedure for effective administration of the municipality is an important service of the Inspection Branch. In cases of where new towns, villages, municipal districts or counties are incorporated a member of the inspection branch may act as administrator of this new unit until the council has been elected. Each year an annual report is prepared by the Inspection Branch in which is incorporated the financial statements of every municipality in Alberta.

These important service branches are also part of the Department of Municipal Affairs.

Cpl. and Mrs. George Nestor and three children have just returned from a 26-month stay in Germany where Cpl. Nestor was stationed with the Canadian army. They will visit for the next six weeks with the latter's parents, Mr. and Mrs. J. Hardy.

### No Delay in Pensions Increase

Eligible old age and blind pensioners in Alberta may anticipate no delay in payment of the nine-dollar increase to \$55 in basic pensions which went into effect across Canada November 1.

Efforts are being made to have upward adjustments included in November cheques which were mailed the latter part of the month. It was announced last week by the Hon. R. D. Jorgenson, Minister of Public Affairs.

New pensioners who became eligible through easing of residence requirements should also be included in the November payments.

Additions to the list of pensioners and adjustments which cannot be processed before this date were carried over for payment, shortly after the middle of December.

Widows' pensions and disabled persons' pensions paid entirely by the province are also raised by \$9.

Increased pensions in other categories are still shared equally by

### Message From the Mayor and Council

**We who are about to die...**

AS AN INTRODUCTION to the carnage of the spectator sports of ancient Rome, the gladiators would face the crowded tiers of the Colosseum and in chorus repeat the classic cry, "We who are about to die, salute you."

From the 24 hour-a-day slaughter on Canada's highways comes the chorus of anonymous thousands, "We who are about to die, implore you..."
